

MADE WITH HIGH
QUALITY INGREDIENTS

SUPERNATURAL[®] BRAND

PRODUCT OF
BRITISH COLUMBIA

GRO AQUA[®]

PROFESSIONAL GROWERS FORMULA

DIRECTIONS: DISSOLVE 1½ TEASPOONS OF GRO AQUA INTO EACH 1 GAL (4 L) OF WATER. USE ONCE A WEEK. PROMOTES VEGETATIVE GROWTH. THIS PRODUCT IS ONLY INTENDED FOR HYDROPONIC USE. ONE TSP = 0.17 oz (5 g). TOTAL DISSOLVED SOLIDS – 700 - 1000 PPM.

• **NOTE** •

Always fill your reservoir with high quality water first, then add **SUPERNATURAL** nutrients to the final volume of water and mix thoroughly. Never mix nutrients in concentrated form.

• **NOTE** •

The following strengths are maximums. Under certain conditions these ratings may be exceeded, however use caution due to risk of burning. **REDUCE NUTRIENT STRENGTH AT FIRST SIGN OF STRESS.** On young plants, or in a warm environment (over 85°F/28°C) use half of all mixture rates (except when CO₂ is used). In all growth media, salts can accumulate and should be leached weekly or monthly.

STORAGE: Always store in a sealed container (in a cool dark area).

CAUTION: The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

Keep out of reach of children.

This product is not all natural.
