|--|--------|
| Total Nitrogen (N) | 5% |
| 0.34% Ammoniacal Nitrogen | |
| 4.66% Nitrate Nitrogen | |
| Available Phosphate (P ₂ O ₅) | 30% |
| Soluble Potash (K ₂ O) | 20% |
| Calcium (Ca) | 7% |
| Molybdenum (Mo) | 0.001% |

Derived from: Calcium Nitrate, Potassium Nitrate, Mono-Potassium Phosphate, and Ammonium Molybdate.

Information regarding the contents and levels of metals in this product is available on the Internet at: <http://www.aapfco.org/metals.htm>

Directions: NOTE - Start with quality water, then add nutrients to the final volume of water. Mix thoroughly. Never mix nutrients in concentrated form. Use to saturate growth medium both before and after planting or transplanting. Dissolve 1 - 1.5 tsp (5 - 7.5 ml) (500 - 750 ppm) into each 1 gal (4 L) of water. Use once every 1 - 2 weeks. One tsp = 0.16 oz (4.5 g). For use in hydroponics and soil mixes.

CAUTION: The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals. This product is not all natural.

KEEP OUT OF REACH OF CHILDREN

SUPERNATURAL[®] SUPER SOAK[®] plant food contains macronutrients and micronutrients essential for plant growth. It enables the uniform spread of nutrients throughout the growth medium. Promotes fruiting, flowering, and vegetative growth. Use SUPERNATURAL[®] SUPER SOAK[®] as directed to soak the growth medium before and after planting or transplanting to ensure maximum food absorption in a stable nutrient solution, even at the root zone. Use on plants showing stress from nutrient lockout or as preventative maintenance against such a condition.
